

Corporate portfolio  
of technical capabilities  
and specialized services

Fluidos Petroleros Venezolanos, C.A.

**FLUPECA**

## About Us

**FLUPECA** is a company powered by human capital with an extraordinary track record and extensive experience in the Oil & Gas and Petrochemical industries. We are distinguished by our technical expertise, commitment to quality, and a robust technological production capacity designed to meet our clients' most demanding requirements.

At **FLUPECA**, we utilize advanced chemical formulation technology to manufacture multifunctional products that drive industrial production growth.

***We create solutions that generate value for our clients.***

# Installed Capacity:

Guatirés Plant, Miranda State.

# Why Choose Us?

As part of our commitment to operational excellence, **FLUPECA** provides an integrated portfolio of chemical solutions and specialized technical services, engineered to optimize performance at every stage of the petroleum value chain.

## Our Offering Includes:

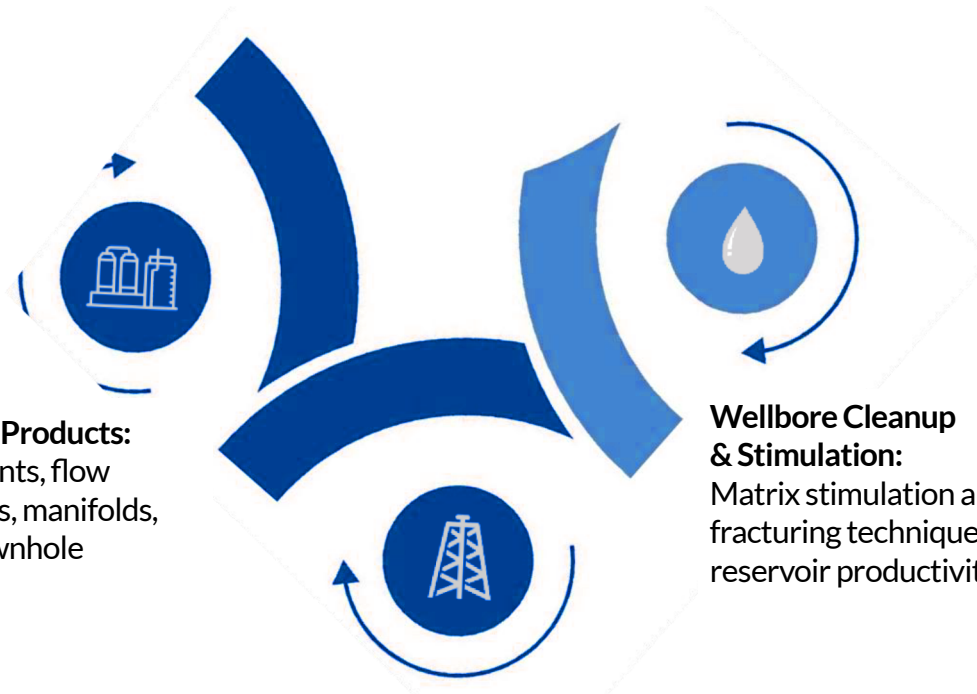

Design and development of products and services tailored to specific client needs.

- Comprehensive and personalized technical assistance.
- Specialized water and crude oil assays.
- Analysis, evaluation, inspection, and diagnostics of industrial equipment, processes, and systems.
- Professional training with a specialized focus.

Fluidos Petroleros Venezolanos, C.A. **FLUPECA** 

# Integrated Chemical Solutions

**Surface Injection Products:**  
For treatment plants, flow stations, refineries, manifolds, and wellhead/downhole applications.

**Wellbore Cleanup & Stimulation:**  
Matrix stimulation and hydraulic fracturing techniques to enhance reservoir productivity.

**Drilling Fluids:** Water-Based Mud (WBM) and Oil-Based Mud (OBM) systems.

# Specialized Technical Services

- **Surface Chemical Treatment:** Specialized personnel available 24/7 for continuous technical assistance.
- **Drilling:** Assignment of Senior and Junior Chemical Specialists on 7x7 or 15x15 rotations, with permanent remote Master-level support.
- **Well Stimulation & Cleanup:** Technical support before, during, and according to the requirements of each intervention.
- **Solids Control:** Dedicated services for efficient monitoring and management of solids during operations.
- **Dewatering & Wastewater Treatment:** Integrated solutions for responsible water management and disposal, with a focus on dewatering processes.
- **Asset Integrity:** Advanced rigid polyurethane technology for the recovery and protection of piping in oil, gas, and petrochemical industries.

# Technical Product Lines

- Drilling and dewatering
- Production
- Well stimulation
- Water treatment

Fluidos Petroleros Venezolanos, C.A. **FLUPECA** 

## Drilling & Dewatering

- Polymers, Flocculants, and Thickeners.
- Corrosion Inhibitors, Defoamers, and Biocides.
- Lubricants and Shale Inhibitors (Clay Control).
- Fluid Loss Controllers and Dispersants.
- Emulsifiers and H<sub>2</sub>S Scavengers.

## Production

- Viscosity Reducers (Drag Reducers).
- Demulsifiers (Direct and Inverse Emulsion Breakers).
- Paraffin and Asphaltene Inhibitors.
- Dispersants (Antifoulants) and Surfactants.
- Solid Wetting Agents and Polymers.
- Foamers, Defoamers, and Biocides.
- Oxygen Scavengers and H<sub>2</sub>S Scavengers.

Fluidos Petroleros Venezolanos, C.A.

## Well Stimulation

- Surfactants and Asphaltene/Paraffin Dispersants.
- Detergents and Corrosion Inhibitors.
- Scale Inhibitors and Bactericides.
- Mutual Solvents and Demulsifiers.
- Clay Swelling Control and Formation Damage Removal.
- Interfacial Transport Technology (ITT).

## Refining & Petrochemicals

- Desalter Demulsifiers.
- Filmic and Neutralizing Corrosion Inhibitors.
- Antifoulants and Defoamers.
- Viscosity Reducers and Antioxidants.
- Scale Inhibitors and H<sub>2</sub>S Scavengers.
- Utilities & Water Treatment.

Fluidos Petroleros Venezolanos, C.A. **FLUPECA** 

## Effluent Clarification and Treatment:

- Coagulants, Flocculants, and Filtration Aids.

## Steam Generation:

- Oxygen Scavengers, Neutralizing Amines, and Scale Inhibitors.

Fluidos Petroleros Venezolanos, C.A.  
**FLUPECA**

### Cooling Systems:

- Dispersants, Internal Treatment, and Ion Exchange Resins.

### Reverse Osmosis (RO):

- Antiscalants, Biocides, and Cleaning Agents.

Fluidos Petroleros Venezolanos, C.A.

We have all the resources to **formulate, design, and manufacture** chemical solutions according to client needs.
